

### REMARKS

Claims 1-25 and 27-38 are pending in this application. No claim has been amended herein.

As a preliminary matter, Applicants note that the final Office Action is premature and should be withdrawn for reasons discussed in the Petition under 37 CFR §1.181, that is, base claim 5 was never amended and, as a result, a new ground of rejection based on a newly cited art could not make the Office Action final.

Turning now to the premature final Office Action, claims 1-125 and 27-38 have been rejected under a new statutory provision, 35 U.S.C. §102(e) as being anticipated by a newly cited art, Park et al., U.S. Patent No. 7,188,271 for reasons stated on pages 2-6 of the Office Action (Paper No. 20070501). While Applicants disagree with the Examiner's analysis of Park '271, a certified translation of Applicants' priority document is enclosed to overcome the rejection.

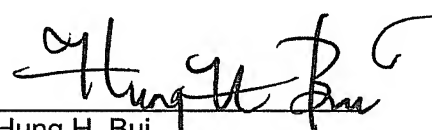

In view of the foregoing amendments, arguments and remarks, all claims are deemed to be allowable and this application is believed to be in condition to be passed to issue. Should any questions remain unresolved, the Examiner is requested to telephone Applicants' attorney at the Washington DC office at (202) 216-9505 ext. 232.

To the extent necessary, Applicants petition for an extension of time under 37 CFR §1.136. If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 503333.

Respectfully submitted,

STEIN, MCEWEN & BUI, LLP
